

Ukraine Production

Quality manufacturing for a wide range of industries and applications.

LLC founded in 2008 "ELIZAVETOVSKY MECHANICAL PLANT" manufactures equipment according to individual order for several industries such as energy, ferrous metallurgy, petrochemicals. The company has production facilities with an area of about 7500 sq.m. And highly qualified personnel about 70 people. The company produces equipment pressure components steam and hot water boilers. The company has everything you need equipment for:

- Cutting pipes, profiles and sheet steel
- Bending of pipes and sheet steel
- Machining
- Stamps
- Heat treatments
- MIG/MAG, TIG, MMA welding
- Preparation and painting of surfaces

LLC "EMZ" is certified:

- Certificate EWFENISO3834Part2
- Certificate IIWENISO3834Part2
- ENISO9001:2015, IDT
- Certificate module BEN12952-5:2011, IDT, EN12952-6:2011, IDT
- Certificate module DEN12952-5:2011, IDT, EN12952-6:2011, IDT

POSSIBILITIES PRODUCTION

- Screen heating surfaces
- Membrane panels
- Steam heaters
- Economizers
- Air heaters
- Collector
- Water-cooled caissons
- Tubular heat exchangers
- Dust ducts
- Gas pipelines
- Metal structures
- Pipeline bends with radius flexible up to 0.65D

continued

Finished element of water heater cooler converter gases

Steeply curved bend with radius bending up to 0.65D

Have a seat production experience complete screen panels, including membrane panels using various spacing parts and stud-attack-wire-melting-wear-resistant layer

Tubular air preheater boiler with a capacity of 900 tons of steam time
